	Dr. dr. Anindita Soetadji, SpA(K)	dr. Rahmat Budi Kuswiyanto, SpA(K)	dr. Herlina Dimiyati, SpA(K)	dr. Shirley Leonita, SpA(K)

GREETING

With the advance of pediatric cardiology, pediatrician in general and pediatric cardiologist specifically have to improve their knowledge and competence in the current treatment of childhood cardiac diseases. In regard to those objectives that Pediatric Cardiology Update VII will be held in Palembang on April 6th and 7th, 2019.

The event will encompass exploration of topics frequently encountered by pediatricians and general practitioners, in hope that childhood cardiac diseases can be detected as early as possible and initial treatment can be provided even with limited resources, before referral to tertiary services.

The Pediatric Cardiology Update VII is organized by Pediatric Cardiology Working Group in conjunction with the Indonesian Pediatric Society Branch of South Sumatera, Department of Child Health of Sriwijaya University Medical Faculty/ Dr. Mohammad Hoesin General Hospital Palembang, and the Indonesian Physicians Association South Sumatera Region.

Chairman

dr. Ria Nova, SpA(K)
